

Rayan Sebti

Accenture | EN / FR / GE / PT

Berlin, Germany • rayan.sebti@gmail.com • +41 79 396 15 54 • <http://www.linkedin.com/in/rayan-sebti/>

Summary

B2B commercial profile with over 2.5 years at Accenture, working on complex, multi-stakeholder deals across Europe. Experienced in the full client engagement cycle, from value proposition structuring to stakeholder alignment. Contributed to proposals exceeding €1M in client-facing settings. Fluent in four languages, covering EMEA and LATAM markets. Looking to move into a client-facing sales role where complex deals and trusted relationships drive revenue.

Experience

ACCENTURE | Strategy & Consulting Analyst

Berlin, Germany, January 2024 – Present

- Embedded in a €2B+ government subsidy negotiation for one of Europe's largest industrial operators, managing stakeholder relationships across government, industrial, and financial counterparts. Owned a key workstream end-to-end and delivered outputs used directly in ministerial-level discussions.
- Co-developed commercial proposals exceeding €1M, mapping decision-maker priorities, structuring tailored value propositions, and supporting senior partners through the full client engagement cycle to close. Directly involved in identifying and qualifying new opportunities during client engagements.
- Acted as PMO across multiple workstreams, coordinating 6+ departments, managing timelines, and ensuring delivery quality under high-stakes commercial and regulatory deadlines.

ENGIE IMPACT | Sustainability Solutions Intern

Berlin, Germany, May 2023 – November 2023

- Conducted market analysis across a 1,000+ site European portfolio, identifying high-potential opportunities for client engagement.
- Supported proposal development and bid preparation for enterprise clients across Europe and Latin America, contributing to a public tender application.
- Performed opportunity sizing and competitiveness analysis for a green hydrogen valley project in Brazil, covering demand sizing, off-taker identification, and export market potential to Europe.

A3 BRASIL ENERGIA (ex-Lider.eco) | Renewable Energy Analyst Intern

São Paulo, Brazil, March 2021 – August 2021

- Conducted investment feasibility studies (sunshine levels, tariff structures, CAPEX, break-even) and quantified emission reduction projections to support capital allocation decisions.
- Supported business development and marketing efforts, contributing to client outreach and commercial materials for renewable energy projects.

Education

ESCP BUSINESS SCHOOL | Master | Sustainability Entrepreneurship & Innovation

Berlin, Germany, September 2021 – July 2023

- GPA: 3.8/4.0 (Mention: Très Bien)
- Thesis: Policy Alternatives for Central Banks in the Green Transition Era (17.7/20)

HEC LAUSANNE | Bachelor | Management

Lausanne, Switzerland, September 2017 – July 2020

- Erasmus exchange: Insper University – São Paulo, Brazil
